Technical information about this website's accessibility

Blandford Forum Town Council is committed to making its website accessible, in accordance with the Public Sector Bodies (Websites and Mobile Applications) (No. 2) Accessibility Regulations 2018. This website is partially compliant with the [Web Content Accessibility Guidelines version 2.1](#) AA standard, due to the non-compliances listed below.

Non-accessible content of the website

We know some parts of this website aren't fully accessible. The content listed below is non-accessible for the following reasons:

Non-compliance with the accessibility regulations

- the website template doesn't allow to modify the line height or spacing of text
- some older PDF documents aren't fully accessible to screen reader software
- No 'skip to main content' option on any pages, however there is a 'scroll to top' button

Disproportionate burden

- some of our online forms may be difficult to navigate using just a keyboard
- there's a limit to how far you can magnify the map on our 'contact us' page

Content not within scope of the accessibility regulation

N/A

We've assessed the cost of fixing these issues and believe that doing so now would be a disproportionate burden within the meaning of the accessibility regulations. We will make another assessment when we next do a major redevelopment of the website.

Issues with PDFs and other documents

We aim for all our documents to be accessible to a screen reader and have made changes to most of the documents on the website.

Some of our older PDFs and Word documents don't meet accessibility standards - for example, they may not be marked up so they're accessible to a screen reader.

Some of our PDFs and Word documents are essential to providing our services. For example, we have PDFs with various information as well as application forms for the cemetery. By September 2020, we plan to either fix these or replace them to be more accessible.

Updating the documents is a work in progress and if you find something that has been missed please contact us using the details above and we will endeavour to fix the issue as soon as possible.

Any new PDFs or Word documents we publish will meet accessibility standards.

Issues with images, video and audio

There shouldn't be any issues as the images on the home page have alternative text.

Issues with interactive tools and transactions

The website doesn't have any interactive sections. Any forms need to be downloaded for completion; alternatively hard copies can be requested from the office.
